Subject: Lakeview Data Request 7: original cultural resources maps

Importance: High

Hi Ryan,

The CPUC, ESA, and representatives of the Pechanga Tribe had a good conversation this morning about the Alessandro Substation work proposed by SCE in its comments on the Draft EIR for the Lakeview Substation Project. The next step will be an in-person meeting that has been scheduled for next Tuesday morning, July 17th. To make that meeting worthwhile, we are requesting copies of the most recent original ECORP records search maps. SCE earlier provided us with a composite map based on these originals, but we need the original underlying source maps that were used to prepare the composite. Accordingly:

Data Request 7: Please provide the most recent original ECORP records search maps in SCE's possession for the areas that would be affected by the Lakeview Substation Project on or before Monday, July 16, 2012.

We realize that we are asking for a quick turnaround and hope, since the request is for materials already in your possession, that it will not be too burdensome.

Thanks much,
Janna
